Product Description and Applications

Skincare: Creams and lotions
Cosmetic: Facial products

Food: Juices and Beverages

Health: Medicines and Supplements

It can be incorporated into various personal care and cosmetic products. It has also been used in tonics and health supplements. As a pharmaceutical ingredient it is similar to Aloe lump (Cape Aloe – USP), only dried differently.

It is used in medicines for its laxative effect. It has found application in veterinary products for its antiparasitic (endo- and exoparasites) activity.

It can be used in pet shampoos and sprays. It is incorporated into licks for cattle. It has been shown to be effective against *Haemonchus contortus* and *Trichostrongylus colubriformis*, parasites found in livestock and non-toxic up to concentrations of 20g/kg. As a result of its phenolic ingredients it shows antimicrobial activity

Warning: The product has a strong laxative effect. Not to be used by pregnant and breast-feeding woman or children.

Specifications

Limits

Appearance	Fine yellow powder
Consistency	Homogenous
Taste	Extremely Bitter
Moisture	<5%
Ash	<7%
Aloin	>18%
Dispersion rate	>15 Minutes
Preservatives	None

Typical Properties

Partly soluble in hot water
Soluble in alcohol

Packaging

Standard sample size is 4 gram
Small size: 1 kg
Bulk size: 8 kg per box

Storage and Handling

Store in an airtight container at <25°C free from moisture and direct sunlight.
Shelf life: Unopened: 2 years
Opened: Depend on storage

Please refer to the Material Safety Data Sheet (MSDS) for this product for instructions on safe and proper handling and disposal.
